Subject: Error on DPI site for CTE numbers at Escuela Verde 2022/23 school year

To whom it may concern

This letter is written to make you aware that Escuela Verde made an error in our sharing of CTE data from the 2022/23 school year. We initially stated we did not have any CTE concentrators, while in fact we had three.

The reason or the cause of this problem is based on user error in creating classes in our student information system (JMC) such that we did not label classes correctly to connect to our CTE courses and the instructors who taught those classes. Once we had the instructors, courses and programs connected, we were able to fix the errors in WiseDash. This resulted in us being able to claim three students as CTE concentrators.

Thank you,

Kim Johnson  
Collaborative Leader
